Menu

GOOD FOOD, MADE WITH INTENTION.

We are a Malaysian food innovation company turning imperfect and surplus produce into everyday food.

From catering and delivered meals to house-made sauces, sambals, jams and soups, we make food that brings people together while making better use of what farmers grow.

Since 2019, we've worked with 45 farmers and food producers to move 240 tonnes of imperfect and surplus produce into our kitchens, while serving over 40,000 people through good food.

Today, we continue to find new ways to make imperfect produce go further, from working closely with farmers to creating food that brings people and communities together.

45

FARMERS &
FOOD PRODUCERS

40,000

PEOPLE SERVED
THROUGH GOOD FOOD

GOOD FOOD
FOR PEOPLE
& THE PLANET

Meet Uncle Paul, one of our farmer partners who has been part of the Saving Graze journey for the past 5 years.

THOUGHTFUL SOURCING. CREATIVE TRANSFORMATION.

We believe sourcing is about more than finding the perfect produce. We work directly with farmers to source imperfect and surplus produce, then bring it into our kitchen to see what it can become.

SOURCE

From our farmer partners.

TRANSFORM

Through our kitchen and R&D.

SHARE

As food, products and new possibilities.

Good food, good company, good impact.

We've served all kinds of gatherings, and every order supports our farmer partners and the communities around us.
